the requester of the right to appeal the determination to the Departmental Information Security Review Committee. A requester who wishes to appeal a classification review decision, or who has not been notified of a decision after 60 calendar days, may submit an appeal to the Departmental Information Security Review Committee.

(e) If the determination reached is that continued classification is not required, the information will be declassified and the material remarked accordingly. The office acting on the request will then refer the request to the office originating the material or higher authority to determine if it is otherwise withholdable from public release under the Freedom of Information Act (5 U.S.C. 552) and the Department's implementing regulations (49 CFR Part 7).

(1) If the material is available under the Freedom of Information Act, the requester will be advised that the material has been declassified and is available. If the request involves the furnishing of copies and a fee is to be collected, the requester will be so advised pursuant to 49 CFR Part 7, Departmental regulations implementing the Freedom of Information Act.

(2) If the material is not available under the Freedom of Information Act, the requester will be advised that the material has been declassified but that the record is unavailable pursuant to the Freedom of Information Act, and that the provisions concerning procedures for reconsidering decisions not to disclose records, contained in 49 CFR Part 7, apply.

(f) Upon receipt of an appeal from a classification review determination based upon continued classification, the Departmental Information Security Review Committee will acknowledge receipt immediately and act on the matter within 30 calendar days. With respect to information originally classified by or under the primary cognizance of the Department, the Committee, acting for the Secretary, has authority to overrule previous determinations in whole or in part when, in its judgment, continued protection in the interest of national security is no longer required. When the classification of the material produced in the

(1) If it is determined that the material produced in the Department requires continued classification, the requester will be so notified and advised of the right to appeal the decision to the Interagency Classification Review Committee.

(2) If it is determined that the material no longer requires classification, it will be declassified and remarked. The Committee will refer the request to the General Counsel, or to the head of the Departmental agency concerned, as the case may be, to determine if the material is otherwise withholdable from the public under the Freedom of Information Act (5 U.S.C. 552) and Departmental regulations, (49 CFR Part 7), and paragraphs (f)(1) and (2) of this section will be followed. A copy of the response to the requester will be provided to the Committee.

(g) Requests for a classification review of material more than 25 years old will be referred directly to the Archivist of the United States and the requester will be notified of the referral. In this event, the provisions of this section apply.

(h) Whenever a request is insufficient in the description of the record sought, the requester will be asked to limit his request to records that are reasonably obtainable. If, in spite of these steps, the requester does not describe the records with sufficient particularity, or the record requested cannot be obtained with a reasonable amount of effort, the requester will be notified of the reasons why the request is denied and of his/her right to appeal the determination to the Departmental Information Security Review Committee.
